

10 Questions You Should Be Asking Your A/V Team

(Psst.. that's US!)

1. What is your plan for my specific venue?
2. How will you handle audio coverage for my audience size?
3. What is the lighting design and how does it match my event goals?
4. How do you ensure smooth transitions between segments?
5. What's your backup plan if something goes wrong?
6. How do you integrate with my event timeline?
7. How will my event be recorded or streamed?
8. What equipment and technology will you be using?
9. How do you handle last-minute changes or unexpected requests?
10. How early will your team arrive for setup, rehearsals, and testing?
